Aug-Dec 2008 — Vol. 16, No. 3 — Washington State Department of Community, Trade and Economic Development — Bond Users Clearinghouse

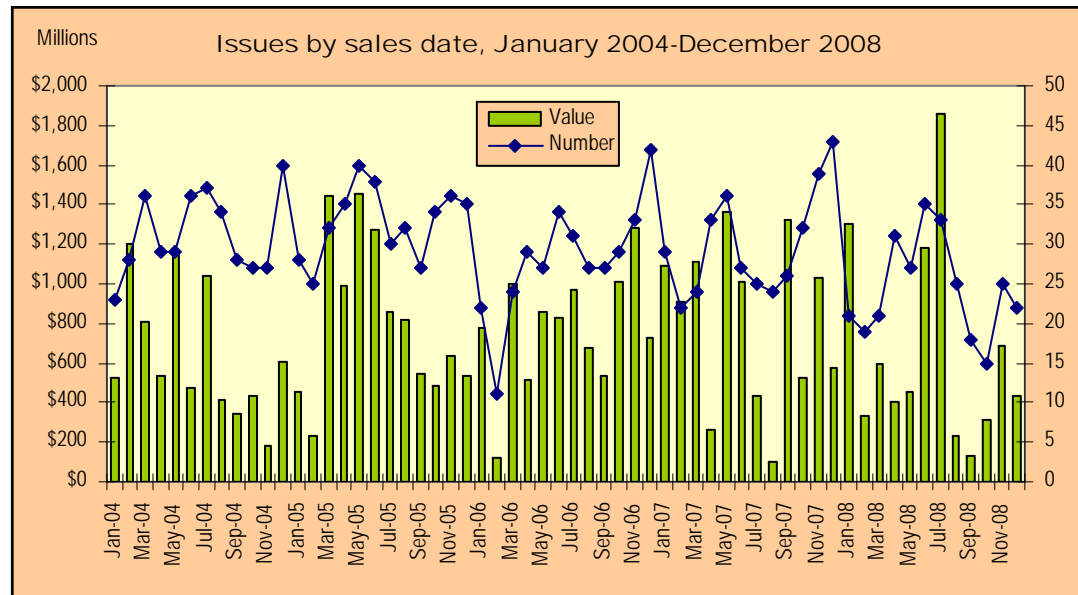

Clearinghouse news:

Bond market slow but still alive. Although third quarter 2008 total bond volume in the state was up nearly 20 percent over third quarter 2007, fourth quarter 2008 volume dropped more than 32 percent over fourth quarter 2007. Bond dollar volume for the year was down 19 percent in 2008 compared with 2007. The number of bonds issued also dropped nearly 19 percent from 2007. However, in a five-year comparison, fourth quarter 2008 was up nearly 17 percent over the same quarter in 2004, and total bond volume for the year was up approximately three percent over 2004's volume.

Even 2008's lowest month, September, was slightly ahead of the lowest volume months in 2007 (August) and in 2006 (February). It's hard to use the data to draw firm conclusions in our current volatile market, and even more difficult to make any predictions, but while it does appear that the bond market in Washington has declined, bonds are still moving in the state. See charts on page 2 for a graphic display of five years of quarterly data.

Clearinghouse online reporting forms. Many of you have logged on and used our new online reporting system. I really appreciate the insightful feedback you have provided on functionality.

* State law requires issuers to submit a "Bond 101" report within 20 days of issuance (see page 2). Compliance is not universal, so data for recent months may be less complete.

(Continued from page 1)

Thanks to your feedback, we've been able to make some improvements in the system so that it can be a tool that really works for you, our customers, to save both time and mailing costs. Please continue providing feedback if you notice something that could work better. If you haven't yet tried the system and would like to, contact me at buc@cted.wa.gov or 360-725-5021 to request log-in and password information.

—Liz Green-Taylor

Using the New Online Forms Successfully

1. Follow the link at www.cted.wa.gov/buc to access the log-in page
2. Once your account is set up, every time you log in, you will have access to all the Bond 101 forms connected with your account. Let us know if any seem to be missing.
3. Before starting a new Bond 101 report, collect all your bond information, including all issuance costs.
4. If you have electronic copies of bond covenants and official statements, you'll be able to attach them to the form electronically, so have them ready on your computer.
5. General helps, including a glossary, are available by clicking on the "Help" link in the upper left of your screen.
6. Additional help, definitions, and formulas for particular items are available by rolling your cursor over the information icon ⓘ next to certain items.
7. Required fields are marked with an asterisk. The form will prompt you to fill out required fields before moving on.
8. Each of the form pages must be completed sequentially, but you'll be able to use the left hand navigation bar to move back and forth among pages you've already completed to edit them as needed.
9. Be sure to press the "Save and Continue" button at the bottom of each page once you've entered data, before moving on or going back, to ensure your data is saved.
10. For Bond Cap issuances, you may fill in just the first few screens of the form as the Notification of Issuance within the required three days, then return later to complete the rest of the Bond 101 information.
11. With this new system, you will be able to easily edit information at a later date. For example, if costs are estimates when you first file the Bond 101, you may return and edit the information when the costs become firm numbers.
12. You'll be able to print a copy of the Bond 101 and Bond Cap Notification of Issuance for your records when you're finished.

Administrative Assistant: Vernita Shye
360/725-3023 or buc@cted.wa.gov

We cannot guarantee full compliance with state reporting requirements, so debt issue listings may not be exhaustive.

Bond issue reporting requirements

Chapter 39.44 RCW requires information on newly issued bonds to be supplied to the Department of Community, Trade and Economic Development (CTED) within 20 days of issuance. The underwriter submits information on a “Bond 101” report form available in as an online form or a MS Word form on our website, www.cted.wa.gov/buc. In cases where an issue is made without an underwriter, the issuer or its representative supplies the information. The issuer may opt to have an agent, such as an underwriter or bond attorney, complete the form or appropriate portions thereof. The following agencies have the responsibility of completing reports:

- ◆ A state fiscal agency, when it acts as bond registrar for an issue (with local governments supplying all necessary information);
- ◆ Local governments issuing debt for whom the state fiscal agency is not the bond registrar;
- ◆ State agencies issuing bonds.

The Bond 101 deadline dilemma:

Speed of submission versus completeness?

We know that submitting a Bond 101 form within 20 days is a tall order (see above for details on the state statute), particularly if the data you need isn't immediately available. So here are some rules of thumb to think about:

- Our new online system solves this dilemma for reporters who use it, by making it possible for you to enter the data you do have within the time limit, then return later to edit the figures when costs are finalized. Once you've clicked “Save and Submit” on the last page of the online forms, your Bond 101 is submitted on time, even if figures need to be updated later.
- If you aren't sure about whether a cost figure is final, be sure to designate it as an estimate. You can do this by checking the “Estimate” box next to the cost item in the online form.
- If you'd like your debt issue to be listed in the next monthly Excel spreadsheet of Bond 101 data and/or the *Bimonthly Update*, we need to receive your Bond 101 submission before the last working day of the month.
- We all get extremely busy at times, but we'd invite folks to develop the habit of moving Bond 101s off their desks promptly. Late submissions skew the data on which everyone depends — including your firm or agency.

If you have any questions or concerns, please contact Liz Green-Taylor at 360/725-5021 or buc@cted.wa.gov.

Table terms, A to Z

Debt type. Abbreviations include Com Paper (commercial paper), GO Bonds (general obligation), LID Bonds (local improvement district), Rev Bonds (revenue), TANs or BANs (tax or bond anticipation notes), COPs (certificates of participation), and IBWs (interest-bearing warrants).

Gross underwriting spread. This is the difference between the amount paid to the issuer for the bonds and the amount expected to be yielded when the bonds are resold on the secondary market. The total spread and cost per thousand are listed.

Interest rate. This is the reported net interest rate, and is calculated with the following formula:

$$\frac{\text{Aggregate Interest Payable (+Discount -Premium)}}{\text{Par Value of Issue} \times \text{Average Life}}$$

Issue number. This is the number assigned to an issue as it is being inputted into our database.

Issue series. Multiple issues are designated, and whether bonds are taxable. When multiple issues are reported on one Bond 101 form and have different interest rates, they are listed separately and issue costs are shown under the first issue number. When interest rates are identical, the entire series is listed under one issue number and par values totaled.

Maturity date. For issues that have multiple offerings, the date listed is the one farthest into the future.

New/refund/combo. This designates whether the issue is original, is intended to refinance existing debt, or is a combination of the two.

Par value. This is the amount of the principal or aggregate face value of the issue.

Principal user. In some cases the principal user will not be the issuer. An example of this arrangement is one in which a state agency (the issuer) issues a bond for a local government body (the principal user).

Sale date. This is the date of the bond sale. For a competitive offering it is the date of the bid opening. The date of sale for a negotiated offer or a private placement is the date of the signing of the bond purchase agreement.

Sale type. There are four categories: Neg Sale (negotiated sale), Comp Bids (competitive bids), Private (private placement), and Mini (mini bonds). Competitive bids are open to any underwriter. A negotiated sale is arranged with an individual underwriter. A private placement is a direct sale to one or more investors.

Voter approved? This designates whether the bond issue was approved by a three-fifths vote of the electorate.

5 WAYS TO LEARN MORE ABOUT PUBLIC DEBT IN WASHINGTON STATE

■ **PUBLIC DEBT BIMONTHLY UPDATE**

This newsletter provides information on bonds and other types of debt issued by local and state government. Print and electronic editions are available every other month, or six times per year. Back issues are posted on our web page, www.cted.wa.gov/buc.

■ **MONTHLY SPREADSHEET OF DEBT ISSUE DATA**

Available as an Excel 2000 file and distributed as an e-mail attachment *every* month. Now posted on our web page.

■ **ARCHIVES OF DEBT ISSUE INFORMATION**

To receive a copy of an official statement or a "Bond 101" disclosure report form, please fill out a "Bond Issue Info Request Form" on our web site.

■ **THE PUBLIC DEBT REPORT: AN ANALYSIS OF BOND AND OTHER DEBT ISSUES BY LOCAL AND STATE GOVT.**

Our annual wrap-up of debt-issue activity by local and state government is offered in electronic and print editions each year.

■ **THE GO REPORT: AN ANALYSIS OF OUTSTANDING GENERAL-OBLIGATION MUNICIPAL DEBT**

The results of our annual survey of local government debt capacity are offered in electronic and print editions each year.

ALL OF THESE SERVICES ARE FREE. TO GET ON A DISTRIBUTION LIST, FILL OUT THE SUBSCRIPTION FORM ON OUR WEB PAGE.
