## Income Eligibility Guidelines

The Federal guidance has increased the Washington State Low-Income Weatherization Program Eligibility Guidelines to 200% of federally established poverty guidelines. It is acceptable to consider total household income at or below 200% Federal poverty or 60% State median income, whichever is greater. However our priority is still 125% of federal poverty guidelines.

Columns A and B show that maximum income allowed at 125 percent of the poverty guidelines. Income limits are determined by multiplying the current Poverty Guidelines by 125 percent.

Columns C & D show maximum monthly and annual income for households with income that is 100% from wages.

Further income documentation testing must be done to determine actual eligibility.

<sup>1</sup> Based on the federally-established poverty guidelines effective January 23, 2009.

<sup>2</sup> The allowance for wage earners is obtained by dividing the 125% of federal poverty guidelines figure by 0.80.

<sup>3</sup> The State Median Income (SMI) is established by the U.S. Dept. of Health and Human Services effective March 13, 2009.

For family sizes greater than 4 persons, the income limit is figured by multiplying the amount for a family of four at 60% SMI by 132% plus an additional 3% of the 4 person SMI for each additional person (over 4).

Example: 8 person household	4 person h/h @ 60% SMI	6 person h/h @ 132%	plus 2 X 3%	= 60% SMI for 8 person h/h
	\$ 46,606	\$ 61,519	\$ 2,796	\$ 64,316
