

# Washington State Low-Income Weatherization Program 2016 Income Eligibility Guidelines

The Federal guidance for the Washington State Low-Income Weatherization Program Eligibility Guidelines is 200 percent of federally established poverty guidelines. It is acceptable to consider total household income at or below 200 percent Federal Poverty Level (FPL) or 60 percent State Median Income (SMI), whichever is greater. However, the maximum eligibility for LIHEAP funding is 60% SMI.

Columns A & B show maximum monthly and annual income allowed for households at 200% FPL. Columns C & D show maximum monthly and annual income allowed for households at 60% SMI.

Further income documentation testing must be done to determine actual eligibility.

1 - HHS 2016 State Median Income Estimates effective October 1, 2015.

In accordance with 45 CFR 96.85, 60% of State's estimated median income for a four-person family is multiplied by the following percentages to adjust for LIHEAP: 52% for one person, 68% for two persons, 84% for three persons, 100% for four persons, 116 % for five persons, and 132% for six persons. For each additional household member above six persons, add 3% to the percentage for a six-person household (132% + 3%), and multiply the new percentage by 60% of the State's estimated median income for a four-person household.

Example: 7 person household                      135% (132% + 3%) x \$ 51,008    =    \$68,861

2 - U.S. Department of Health and Human Services (HHS) 2016 Poverty Guidelines effective January 25, 2016.

3 - Wage earners' income qualifications are obtained by dividing the allowable amount of FPL or SMI figure by 0.80.

The Weatherization Information Data System asks you to report households served by four household income categories. This table gives the income ranges for each of the required categories:
