

LIHEAP Eligibility Guidelines

Below are basic eligibility guidelines. Remember, these are just guidelines. Actual LIHEAP eligibility must be determined by the LIHEAP provider in your community. To do so, you'll need to schedule an energy assistance appointment with the agency that provides LIHEAP services in your area.

Basic LIHEAP eligibility is outlined as follows:

1. Your household has not received a LIHEAP energy assistance grant during the current program year, October 1st thru June 30th.
2. Your household pays for residential home heating costs either directly to an energy vendor or indirectly through rent.
3. The household's average monthly income is at or below 125% of the federal poverty level (FPL). Below is a chart of the current income levels by household for the current program year.

Note: There are various deductions and exclusions allowed for different types of income. Your household's actual income must be calculated by the LIHEAP provider in your area.
