1 - HHS 2020 State Median Income Estimates effective October 1, 2020.

In accordance with 45 CFR 96.85, 60% of State's estimated median income for a four-person family is multiplied by the following percentages to adjust for LIHEAP: 52% for one person, 68% for two persons, 84% for three persons, 100% for four persons, 116 % for five persons, and 132% for six persons. For each additional household member above six persons, add 3% to the percentage for a six-person household (132% + 3%), and multiply the new percentage by 60% of the State's estimated median income for a four-person household.

Example: 7 person household 135% (132% + 3%) x \$61,061 = \$82,432
