

## Housing Action Plan Implementation Awardees

The Housing Action Plan and Implementation (HAPI) grant provides funding for cities to develop strategies to meet their housing needs. Commerce awarded \$3.5 million to 44 communities to research their housing needs, engage the community in a public process and identify zoning changes or programs to encourage private developers to build more housing that meets the needs of residents. Those awarded grants in November 2021 are listed below. Cities with a population over 20,000 as of April 2021 could apply for up to \$100,000, while cities below that population threshold could apply for up to \$75,000.
