1. INTRODUCTION

1.1 PURPOSE AND BACKGROUND

The Washington State Department of Commerce hereafter called "COMMERCE," is initiating this Request for Applications (RFA) to solicit applications from eligible entities to fund installations of solar retrofits for eligible public buildings.

The Washington State Legislature created the program to provide solely for grants to be awarded in competitive rounds to local agencies, public higher education institutions, school districts, federally-recognized Tribal governments, and state agencies for projects that involve the purchase and installation of solar energy systems, including solar modules and inverters, with a preference for products manufactured in Washington.

COMMERCE intends to award one or multiple contract(s) to provide the services described in this RFA.

This RFA includes program guidelines and requirements and instructions for applying. Read the entire RFA carefully, and refer to these sections for key information:

- [Section 1.3 MINIMUM QUALIFICATIONS](#) lists the qualifications that must be met for an application to be considered. Ensure the application clearly articulates how the project meets minimum qualifications.
- [Section 1.4 FUNDING](#) describes the total funding available, applicant match funding requirements, and maximum grant amounts.
- [Section 3.1 APPLICATION CONTENTS](#) includes a list of required attachments for the application. All attachments must be submitted according to the instructions. Materials cannot be accepted after the application deadline. The application questions can be found at the ZoomGrants link listed in [Section 2.4 SUBMISSION OF APPLICATIONS](#).
- [Section 4.2 EVALUATION BREAKDOWN](#) describes how applications that meet minimum qualifications will be evaluated, with weighting of various criteria.
- [Section 2.1 RFA COORDINATOR](#) explains the process for asking questions.

1.2 OBJECTIVES AND SCOPE OF WORK

The primary purpose of grants funded under this solicitation must be to install net-metered solar photovoltaic (PV) systems connected to publicly-owned facilities, which result in cost savings for a public entity from onsite energy production.

To align with state and local policy goals, including the [Washington State Energy Strategy](#), COMMERCE is prioritizing projects that meet the following criteria:

- Projects with shorter calculated payback period
- Projects that provide more than the minimum required match
- Applicant has not received funding for solar from this program previously
- Projects that use modules or inverters manufactured in Washington. Please see the program website for submissions from Washington manufacturers of solar PV equipment. *Note: Commerce's ability to prioritize these projects may be affected by further review by the World Trade Organization.*¹
- Projects with lower cost per watt
- Projects that demonstrate community input and benefits
- Projects located in certain Priority Communities (see [Section 1.7 DEFINITIONS](#)).

These goals are reflected in the scoring criteria described in [Section 4.2 EVALUATION BREAKDOWN](#). A project is still eligible to apply to this grant if it does not intend to or is unable to accomplish one or all of these program goals.

All project costs must be necessary for and directly connected to the acquisition and installation of the solar array.

¹ See https://www.wto.org/english/tratop_e/dispu_e/cases_e/ds510_e.htm

Examples of **eligible**, reimbursable expenditures include:

- Solar technology and construction materials
- Solar electrical connectivity, inverters, etc.
- Personnel costs for permitting, project management, and procurement of services necessary to the completion of project objectives.
- Personnel costs for site design, preparation, installation, and commissioning.

Examples of **ineligible**, non-reimbursable expenditures include:

- Purchase or rental of real estate
- Construction or general maintenance of buildings and parking facilities
- New paving and landscaping
- Maintenance costs
- Studies or research
- Surveys
- Batteries or other energy storage infrastructure

1.3 MINIMUM QUALIFICATIONS

Applications that do not clearly meet or exceed all minimum qualifications listed below will be disqualified and will not be scored.

Applicant qualifications:

- Applicants must be public entities in the state of Washington, such as:
 - Local agencies, including any city, town, county, special district, municipal corporation, agency, port district or authority, political subdivision of any type or any other entity or authority of local government in corporate form or otherwise.
 - Public higher education institutions
 - K-12 public school districts
 - State agencies
 - Federally-recognized Tribal governments
- Applicants must be in good standing with all applicable federal, state, and local laws and requirements, including with the Department of Commerce.
- Applicants must be licensed to do business in the state of Washington or submit a statement of commitment that it will become licensed in Washington within thirty (30) calendar days of being selected as the Apparently Successful Grantee.
- Applicants must be responsive to communications from Commerce. Failure to reply by specified deadlines may result in elimination.
- Applicants may submit unlimited qualifying applications.

Project Qualifications:

- The project must be located at an existing facility owned by an eligible applicant and located in Washington State. An existing facility is defined as a building or facility that has a certificate of occupancy issued by the application deadline.
- A project is defined as a solar electric system installed at a single location and either interconnected with a single meter or installed on a single building. Each project must be submitted on a separate application.
- Projects may not replace an existing solar electric system.
- Projects are proposed to be net-metered with the serving electrical utility.
- Project equipment is proposed to be owned by the applicant.
- The maximum project size is 100kW AC. The minimum project size is 20kW AC, or 10kW AC for Priority Communities as described in [Section 1.7 DEFINITIONS](#).
- Projects must include energy production monitoring capabilities
- Projects must have a calculated payback of less than 35 years, using a statewide average electricity rate of \$0.0941/kWh.

Application requirements:

- Applications must be submitted through the process determined by Commerce.
- Applications must be received by the due date specified by Commerce.
- All application materials must be submitted in the format required by Commerce.
- Answers and attachments must not exceed the length specified in the RFA or in the application instructions. Content that exceeds the length limitations will not be considered.
- Applications must include:
 - All materials and information listed in the application instructions
 - A complete and accurate application
 - A completed and signed Certification of Organization Official
- Applicants must be responsive to communications from Commerce. Failure to reply by specified deadlines may result in elimination from consideration.

1.4 FUNDING

Currently up to \$ \$1,261,355.92 of funding is available from the Energy Retrofits for Public Buildings program (formerly called Energy Efficiency and Solar Grants) as authorized in the Enacted 2021 Capital Budget Substitute House Bill 1080 Sections 1022 and 1065. This amount reflects the deduction of the 3% administrative costs as approved by the Office of Financial Management.

Additional funds may be available through other sources including but not limited to:

- State funds available from previous grant rounds
- Additional funding as authorized by the legislature
- Future federal funding distributed to COMMERCE (Funds that are from a federal source will have additional requirements.)

This funding cannot supplant or replace funds already committed to the project. Commerce will not fund projects beyond 100% of project costs.

Any contract awarded as a result of this competitive process is contingent upon no successful process protests. Any contract awarded as a result of this procurement is contingent upon the availability of funding.

At least 20% of funds will be awarded to projects in Small Cities and Towns (see [Section 1.7 DEFINITIONS](#)). The maximum award is \$250,000 per applicant. There is no minimum award amount.

Applications exceeding the maximum allowable award will be considered non-responsive and will not be evaluated. The same applicant entity can apply for more than one award with the combined maximum totaling no more than \$250,000.

Minimum Match Requirements

Projects must provide 50% of the total project cost (leverage ratio of 1:1) from other, non-state sources. Total project cost for this purpose excludes any contingency funds. Applicant match funds do not need to be secured prior to application, but must be secured before the contract is executed.

Certain projects are eligible for a reduced match requirement (see [Section 1.7 DEFINITIONS](#) for details):

- Projects located in:
 - Highly Impacted Communities
 - Lower Income Communities
 - Rural Communities
- Projects of federally recognized Tribal governments

These projects must provide 33% of the total project cost (leverage ratio of 1:2) from other, non-state sources. If a project does not meet the minimum match amount, Commerce will adjust the budget to meet the minimum match amount. If the project is selected, Commerce will adjust the award to meet the minimum match requirements.

1.5 PERIOD OF PERFORMANCE

The period of performance of any contract resulting from this RFA is tentatively scheduled to begin on or about September 2022 and to end prior to December 2024. Amendments extending the period of performance, if any, shall be at the sole discretion of the COMMERCE.

The period of performance includes up to 18 months for construction and a minimum of 12 months Measurement and Verification. Longer construction timelines may be considered on a case-by-case basis.

Projects must not begin (be under construction contract) until award letters are received by COMMERCE.

During construction, grantees will be required to submit quarterly reports. During Measurement and Verification, no quarterly reports are required.

COMMERCE reserves the right to extend the contract for two one-year periods.

1.6 CONTRACTING WITH CURRENT OR FORMER STATE EMPLOYEES

Specific restrictions apply to contracting with current or former state employees pursuant to chapter 42.52 of the Revised Code of Washington. Applicants should familiarize themselves with the requirements prior to submitting an application that includes current or former state employees.

1.7 DEFINITIONS

Definitions for the purposes of this RFA include:

Apparent Successful Grantee: The Applicant(s) selected as the entity to perform the anticipated services, subject to completion of contract negotiations and execution of a written contract.

Applicant: Individual, organization, or other entity that submits an application in order to attain a grant contract with COMMERCE.

Application: A formal offer submitted in response to this solicitation.

Calculated Payback: The total project cost, excluding contingency, divided by the annual value of energy produced, using a statewide average electricity rate of \$0.0941/kWh. Energy production beyond the annual usage at the relevant meters will not be included. ESCOs should use calculated energy production estimates, rather than guaranteed.

COMMERCE or AGENCY: The Department of Commerce is the agency of the state of Washington that is issuing this RFA.

Cost per Watt: The total project cost, excluding contingency, divided by AC system capacity.

Federally Recognized Tribal Governments: The government of any federally recognized Indian Tribe whose traditional lands and territories included parts of Washington, designated subdivisions and agencies (such as a Tribal Housing Authority), or any other entities or authorities of a federally recognized Tribal government in corporate form or otherwise.

Grantee: Applicant whose application has been accepted by COMMERCE and is awarded a fully executed, written grant contract.

Highly Impacted Communities: For the purposes of this grant, a Highly Impacted Community is a census tract with an overall rank of 9 or 10 on the [Environmental Health Disparities V 1.1 tool](#) created by Washington Department of Health, or any census tract with Tribal lands, as listed in the Environmental Health Disparities tool.

Lower-income Communities: A city, county, or Tribal Area with an area median income less than 80% of State Median Income (currently equivalent to \$59,020), according to the [American Community Survey 5-year estimates](#). Use the median income of the incorporated city in which the project is located, or the county if the project is located outside of an incorporated city. Tribes may instead use the median income of [Tribal Areas](#) (Reservations and Off-Reservation Trust Lands), as defined in the American Community Survey, for projects that are located in these areas.

Request for Applications (RFA): Formal procurement document in which a service or need is identified but no specific method to achieve it has been chosen. The purpose of a RFA is to permit the applicant community to suggest various approaches to meet the need at a given funding level.

Priority Communities: Commerce has identified these communities that will receive priority consideration and that are eligible for reduced match:

- **Highly Impacted Communities:** A census tract with an overall rank of 9 or 10 on the [Environmental Health Disparities V 1.1 tool](#) created by Washington Department of Health, or any census tract with Tribal lands, as listed in the Environmental Health Disparities tool.
- **Lower Income Communities:** A city, county, or Tribal Area with an area median income less than 80% of State Median Income (currently equivalent to \$59,020), according to the [American Community Survey 5-year estimates](#). Use the median income of the incorporated city in which the project is located, or the county if the project is located outside of an incorporated city. Tribes may instead use the median income of [Tribal Areas](#) (Reservations and Off-Reservation Trust Lands), as defined in the American Community Survey, for projects that are located in these areas.
- **Rural Communities:** Projects not located in a city or town that has a population of greater than 50,000 inhabitants and the urbanized area contiguous and adjacent to such a city or town, as defined by the [USDA Rural Energy Pilot Program](#).
- Projects of **federally recognized Tribal governments** (see definition above).

Small Cities and Towns: At least 20% of funds will be awarded to projects located in small cities and towns. To qualify, the project must be located within an incorporated city or town with a population of 5,000 or less. Commerce will use the Office of Financial Management official population estimates as published on November 30, 2021 to determine population eligibility. Grantees who believe the location of the project qualifies but is not included on this list may provide explanation in the narrative of the project. For more information on the official population estimates: <https://www.ofm.wa.gov/washington-data-research/population-demographics/population-estimates/april-1-official-population-estimates>

Total Project Cost: All eligible costs to complete the proposed project except any contingency funds, including but not limited to labor, project management, materials, sales tax, etc.

Vulnerable Communities: population groups that are more likely to be at higher risk for poor health outcomes in response to environmental harms, including but is not limited to racial or ethnic minorities, low-income populations, populations disproportionately impacted by environmental harms, and populations of workers experiencing environmental harms.
